SCOTTISH BIRDS — BINDING

Arrangements have been made for binding Volume 10 of *Scottish Birds*. The charge is £6.50 for binding in red buckram, or £8.00 for binding in red quarter leather, both prices including return postage in U.K. only. The parts to be bound (Nos. 1 to 8, 1978 SBR, and Index) should be sent direct to the binders together with your remittance to cover the cost of binding. Back numbers may be purchased from the Scottish Centre for Ornithology and Bird Protection, 21 Regent Terrace, Edinburgh, EH7 5BT, but NOT from the binders. Previous volumes may also be sent for binding at the same time and at the same rates as Volume 10. *Please be sure to complete the binding form on the back cover* (with details of your name and address, remittance, and style of binding required) before sending the parts to:

P. G. CHAPMAN & CO LTD
Kent House Lane
BECKENHAM, KENT
BR3 1LD

Volumes sent *immediately* will be returned within about three months, but this time cannot be guaranteed for volumes not sent promptly, as costs can only be kept down by binding a substantial number of volumes at the same time.

Note the nature and thickness of the quarterly sections tend to produce steps in the fore-edge of the bound volume, but the extra cost of producing the journal in smaller gatherings, mainly for the benefit of those who want to bind their copies, would not be justified.

English names of birds

English names of species follow *A Species List of British and Irish Birds* (BTO Guide 13, 1978); those of subspecies follow *The Handbook of British Birds* (Witherby *et al.* 1938-41).

Every significant mention of species and subspecies in papers, short notes, letters and plate captions is listed. Scottish Bird Report entries (pre-1978 only) follow the initials SBR. References to any subspecies without distinctive English names are also given in the index of Scientific names of birds. Current Notes, passing references and non-avian species are ignored.
